

**Podiatrist / Senior Podiatrist**

**-National University Health System – Alexandra Hospital (2018)**

The National University Health System (NUHS) will be operating Alexandra Hospital from 2018 and the 79-year-old institution will embark on its next phase of delivering an innovative model of care - one which centers integrated care around the person and led by a team of doctors, nurses and allied health professionals who work closely with the patient, family and community, on an comprehensive care plan in order to collectively bring about seamless care, better value and holistic outcomes. We invite passionate and driven advocates to join us on this exciting transformational journey at the heritage campus.

**Job Role**

- Assess and manage patients referred for podiatry, implement appropriate treatment plans and apply podiatry knowledge and skills independently
- Document patient podiatry records accurately
- Practice professional competence and seek clinical support from supervisor / other healthcare professionals when appropriate
- Assist in developing, promoting and marketing new clinical services
- Contribute to departmental in-service training programmes, hospital educational talks and external talks / workshops / forums / seminars

**The Requirements**

- Recognised Degree in Podiatry
- Postgraduate qualifications in relevant clinical specialty preferred
- Good communication and interpersonal skills
- Service oriented and customer focused
- Team worker
